

**Four Door Media**  
**Wireless Optical Car Mouse**  
**"Cruise the Web in Style"™**

**Operating Instructions**

*Remove Battery Cover. - Place the AAA batteries in the unit. (The batteries must be new and inserted correctly) - Replace the battery cover until it clicks into place. Insert the RF transmitter into an open USB port located on your (CPU/Lap Top) computer, until secure. - Press the button on the RF Transmitter while holding you're Road Mice a few inches from the RF Transmitter, as the "RF" light starts to slowly flash, press the "button" located on the bottom of the mouse, the receiver light will flash very fast. Hold the mouse close to the receiver until the light stops flashing. You're now successfully connected.*

*You may have to left or right click your Road Mice for the arrow to engage. If you experience problems, restart your computer with the RF transmitter secured in the USB port and repeat steps.*

*If you experience any problems, please make sure you have registered your product ([www.RoadMiceTitle.com](http://www.RoadMiceTitle.com)) prior to contacting customer service.*
